We work within the
Education Sector

How is the software currently being used in your organisation?

We use NetSupport School to control access to the desktop in our IT classroom. We also use it to push out software, log out, restart and shut down classroom computers. We also find the locking functions useful to help focus pupils on teaching and not be distracted by the screen.

The challenges we were trying to solve:

We needed a solution that would eliminate distractions and keep pupils focused on the task that they had been given.

Why did you choose our product?

- | | |
