We work within the
Education Sector

How is the software currently being used in your organization?

We use NetSupport School in our high school to manage the technology in two computer labs, using features such as monitoring and controlling student screens, assessment tools, showcasing the teacher's screen and sharing lesson content.

The challenges we were trying to solve:

We wanted to find a solution to allow us to not only control lab computers (and keep students on task), but to deliver teaching and monitoring of students' progress.

Why did you choose our product?

- | | |
|--|--|
| <input checked="" type="checkbox"/> Cost | <input checked="" type="checkbox"/> Features |
| <input checked="" type="checkbox"/> Easy to use | <input checked="" type="checkbox"/> Security |
| <input checked="" type="checkbox"/> Platform support | <input type="checkbox"/> Other |
| <input type="checkbox"/> Recommendation | |

We reviewed several alternative solutions, but as we were already familiar with the product and how easy it was to use, NetSupport School was the one we selected. Also, the product has grown with capabilities over the years and has become a mature product offering.

How/where has NetSupport added value?

- Saved money
- Increased productivity
- Saves time
- Flexibility
- Performance
- Easy to use
- Other

The product is really easy to use and offers really simple and effective control features.

Would you recommend NetSupport?

- Yes No

“ the product grows with new capabilities ”
