Education Sector

How is the software currently being used in your organisation?

We use NetSupport School to control students' PCs, show screens and turn off PCs remotely.

By displaying information that is relevant to the lesson, students' attention is increased.

The challenges we were trying to solve:

We were primarily looking for a solution to control students' PCs in the classroom and keep them focused with tools such as screen lock and internet filtering.

Why did you choose our product?

- | | |
|---|--|
| <input checked="" type="checkbox"/> Cost | <input checked="" type="checkbox"/> Features |
| <input type="checkbox"/> Easy to use | <input type="checkbox"/> Security |
| <input type="checkbox"/> Platform support | <input type="checkbox"/> Other |
| <input type="checkbox"/> Recommendation | |

We found NetSupport School to be competitively priced when compared to other similar programs. Additionally, its range of features to control, monitor and share content is a huge benefit.

How/where has NetSupport added value?

- Saved money
- Increased productivity
- Saves time
- Flexibility
- Performance
- Easy to use
- Other

If there are any issues, being able to turn PCs off remotely is of great benefit.

Would you recommend NetSupport?

- Yes No
