Education Sector

How is the software currently being used in your organisation?

NetSupport School is being used in the ICT suites and on the departmental laptops to monitor and support the students while in the classroom, using tools such as screen monitoring, chat functions, blocking mode and much more.

The challenges we were trying to solve:

We wanted to find a way to manage the technology in our classrooms, deliver remote support and look at what students are doing on their computers.

Why did you choose our product?

- | | |
|--|-----------------------------------|
| <input type="checkbox"/> Cost | <input type="checkbox"/> Features |
| <input checked="" type="checkbox"/> Easy to use | <input type="checkbox"/> Security |
| <input type="checkbox"/> Platform support | <input type="checkbox"/> Other |
| <input checked="" type="checkbox"/> Recommendation | |

The software is very easy to use and the features met our needs to help manage technology in the classroom with ease. When using it, we found all of the options are in logical places, making it simple but effective. The product was also recommended by another school who uses it.

How/where has NetSupport added value?

- Saved money
- Increased productivity
- Saves time
- Flexibility
- Performance
- Easy to use
- Other

The remote support console has enabled us to provide quicker support to users.

It is a very good product and does what it says.

Would you recommend NetSupport?

- Yes No
