

NetSupport School

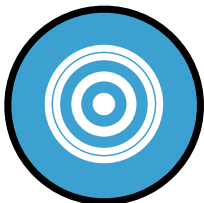

What is it?

NetSupport School is a system that firmly supports focused use and activity of devices in the classroom by teachers. Through a feature-rich interface, you can easily save time, increase productivity and support learning through this effective tool.

Key features and benefits

NetSupport School has a wealth of useful features to support teaching and learning. You can blank all screens, share screens, push your screen to theirs, support learners remotely, quiz learners through lots of different AfL activities, manage printing, share files, use safe search, add whitelisted sites and much more.

Who is it aimed at?

NetSupport School is aimed at teachers across all of the age ranges and phases in compulsory and post-compulsory education.

How does it help?

It helps by supporting the effective use of technology in the classroom and to regulate the activities of learners. It makes you and your learners be more focused and efficient in their purposeful use of technology to support learning and teaching.

Summary

Teaching and learning is too important to leave to chance and this is why NetSupport School is an essential tool for every classroom and school looking to maximise the use of technology.
